Connecting to the madRooster.com VPN Service

Windows 7 / 8 / 8.1 / 10 (64 Bit)

After downloading and installing the client from the downloads section of our website at: https://www.madrooster.com/portal/downloads.php please follow the following instructions

Step 1 SoftEther VPN Client Manager Click "Add VPN Connection" under VPN Connection Connect Edit View Virtual Adapter Setting Name VPN Connection Setting Name Add VPN Connection Step 2 Create New Virtual Network Adapter × Enter a name for your new Virtual Adapter A new Virtual Network Adapter will be created on the system. You can specify a name for the Virtual Network Adapter, which can be a maximum of 31 alphanumeric characters. Note: The default of VPN is acceptable as long as you do not already have an adapter named that. If so, use VPN1, VPN2, Virtual Network Adapter Name: VPN etc The name of a Virtual Network Adapter must be 'VPN' or 'VPN2' to 'VPN127'. (Maximum 127 adapters can be created.) OK Cancel Step 3 The software will create the virtual adapter for you. Creating a new Virtual Network Adapter for Windows.

This process can take several seconds or over a minute.

(Please do not perform other operations while the Virtual Network Adapter is

Please wait...

being installed.)

Step 4

Step 5

Double Click on the VPN Client Adapter you just created.
