Connecting to the madRooster.com VPN Service

<u>Step 6</u>

Click on **Create**. You can skip the login credentials at this stage.

Step 7

Click on Close.

<u>Step 8</u>

Back in Network and Sharing Center, click on **Change adapter settings** on the left.

<u>Step 9</u>

Right click on the madRooster.com connection and click on Properties.

<u>Step 10</u>

In the madRooster.com Properties screen, click on the **Options** tab and then untick **Include Windows logon domain**.

<u>Step 11</u>

Click on the Security tab and then under Type of VPN, select Layer 2 Tunneling Protocol with IPsec (L2TP/IPSec). Then click on Advanced settings.

<u>Step 12</u>

Select **Use preshared key for authentication** and then enter the preshared key that has been provided to you. Click on **OK** when you have finished entering the key.

2TP	
Use pr	eshared key for authentication
Key:	*********
